RICHARD S. ZHU

Expected Graduation: May 2023

EDUCATION University of California, Berkeley

B.A. Computer Science

Relevant Coursework: Structure of Computer Programs, Information Devices and Systems

SKILLS Languages: Python, Java, SQL, HTML/CSS

Frameworks/Technologies: Git, Linux (Ubuntu), Android, NumPy

PROJECTS

Investment Portfolio Diversity Visualization Tool (Python, MatPlotLib, Git)

- Winning Project of the CalHacks 2019 BlackRock API Prize
- · A tool that visualizes the diversity of an investment portfolio given any applicable security attribute
- · Leveraged BlackRock API to compile, sort, and categorize security data from an array of stock symbols
- Integrated MatPlotLib to visualize calculated diversity data and to create a GUI for user portfolio input

Bomberman Remastered (Java, Git)

- · An improved remake of the classic video game Bomberman that can be played on modern devices
- Fully recreated core gameplay functionalities, such as player action timers and random power-up drops
- Added an all-new local multiplayer mode, including dynamic player vs. player gameplay
- Utilized the Java Swing toolkit to design game menus and update graphical textures

Scheme Language Interpreter (Python, Lisp)

- · An interpreter for the Scheme programming language (a dialect of Lisp), built using Python
- · Implemented environments, lexical and dynamic scoping, exceptions, macros, special forms, and more
- · Ensured correct recursive evaluation procedures for call expressions, special forms, and primitives

Smart Typing Practice Program (Python)

- An interactive typing program that calculates typing speed and accuracy with every keystroke
- Built smart autocorrect feature that determines similarity between input and a base word
- Set up communication of clientside information to game servers for multiplayer "racing" integration

Final Grade Calculator (Python)

- A final grade calculator script, for grading systems where the final exam isn't in a seperate category
- Formulated algorithm to compute a needed exam score based off of a user's desired class grade

EXPERIENCE Gateways Summer School

San Diego, CA *Jul.* 2018 – Aug. 2018

Teaching Aide

- Aided Architecture & Engineering teacher with giving lessons and explaining provided examples
- Guided 30 students on their projects and supervised them during break, learning, and work times

Online Clothing Page San Diego, CA

Self Employed

Jan. 2018 — May 2019

- · Sold, packaged, and shipped clothing, cosmetics, books, and other items online
- Completed over 85 transactions, totalling a revenue of \$2,237.35

ACTIVITIES Catalyst for Success

San Diego, CA

Treasurer, Senior Technology Mentor

Sep. 2017 - Aug. 2019

- Taught programming and circuitry at the library to over 200 students (Python, Javascript, Arduino)
- · Worked with library officials to organize regular weekly workshops and week-long summer camps

OTHER Awards

- CalHacks 2019 BlackRock API Prize
- · Intuit George A. Hansen Computer Science Scholar
- Southern California Developmental Soccer League Div. 1 Champion
